

Margot Accettura

Curriculum Vitae

Villanova, PA — margot.accettura@villanova.edu — [LinkedIn](#)

EDUCATION

Master of Science in Library Science

Year of completion: 2024

Pennsylvania Western University - Clarion

Clarion, PA

Master of Science in Imaging Science

Year of completion: 2018

Rochester Institute of Technology

Rochester, NY

Thesis: Methods for the Detection of Subterranean Methane Leakage

Bachelor of Arts in Physics

Year of completion: 2016

Skidmore College

Saratoga Springs, NY

Graduated Cum Laude with Department Honors in Physics

EMPLOYMENT HISTORY

STEM Librarian

Time Period: January 2024 - Present

Villanova University, Falvey Library

- Subject liaison for seven departments within the College of Liberal Arts and Sciences. Duties include collection management for each unique department, outreach to department faculty and students, as well as information literacy instruction catered to unique course needs.
- Member of several committees and working groups of Falvey Library; SOAR Committee, Communications Committee, Immersive Media and Gaming Space Subcommittee, Falvey Scholars Committee, Web Committee, along with its subcommittees on Discovery and User Testing, as well as the AI Working Group.
- Member of the the Data Visualization Competition judging panel and Geography Week Awareness Planning Group which includes members from across the university.
- Perform scheduled shifts for Falvey Library's live reference chat as well as a weekly shift at the mobile reference service at Driscoll Hall for Nursing.
- Developed numerous events for the larger Villanova community, including co-creating R based workshops including an R series that was successful enough to adapt to a daylong summer R Bootcamp, a Falvey Forum on Overleaf, as well as an annual Wikipedia Edit-a-Thon event. Also, presented at the VITAL conference on AI instruction activities for Villanova faculty.

Circulation Assistant

Time Period: June 2022 - December 2024

Phoenixville Public Library

- Perform circulation desk duties using Sierra, including checking out materials, issuing new library cards, and managing holds as well as fielding all manner of patron questions.

Sensor Engineer III

Time Period: September 2018 - January 2024

Arcfield

- Subject Matter Expert and Task Lead - creating workflow for completion of project, perform data analysis, and presentation
- Monitored baseline code for the team after bringing legacy code up to date into Python, performed baseline checks, and implemented new tools
- Improvement shown through promotion from Sensor Engineer II to Sensor Engineer III

Graduate Research Assistant

Time Period: January 2017 - August 2018

Rochester Institute of Technology

- Research for masters thesis using hyperspectral data to detect subterranean methane leaks

Graduate Teaching Assistant

Time Period: August - December 2016

Rochester Institute of Technology

- Ran office hours for Image Processing and Computer Vision I to help undergraduate students with python questions

Bibliographic Services Assistant

Time Period: January 2014 - May 2016

Skidmore College Lucy Scribner Library

- Perform cataloging procedures for entering new books into library collection and physically prepared new books for shelving and repaired old labels
- Awarded Patricia A. Weller Prize for outstanding performance as a Library Student Worker

GIS Lab Assistant

Time Period: January - May 2016

Skidmore College Lucy Scribner Library

- Assist students with questions on GIS technology including ArcGIS

PUBLICATIONS

Thesis

Methods for the Detection of Subterranean Methane Leakage

CONFERENCE ACTIVITY

Publications

Margot Accettura, Tim Bauch, Nina Raqueo, Joe Mallia, Carl Salvaggio, "Hyperspectral detection of methane stressed vegetation", Proc. SPIE 10664, Autonomous Air and Ground Sensing Systems for Agricultural Optimization and Phenotyping III, 106640I (21 May 2018); doi: 10.1117/12.2304045; <https://doi.org/10.1117/12.2304045>

- Best Paper at the SPIE 2018 Autonomous Air and Ground Sensing Systems for Agricultural Optimization and Phenotyping III Conference

Presentation

Daly, N., Accettura, M. (May 9, 2026) Hereditary Headaches: A Survival Guide for Overcoming Inherited Obstacles [Conference presentation]. LOEX 2026 Conference, Norfolk, VA, United States.

SELECT PROJECT CONTRIBUTIONS

Internal Grants

Funded

Proposal Title: Seed Grant for FY 2025 to support community-engaged research with the Overbrook Environmental Education Center (OEEC)

Funding Agency: Villanova Strategic Initiative for Climate, Justice, and Sustainability (SICJS)

Role Status: Active librarian contributor to create and maintain Villanova database of collaborations with OEEC

Coverage Period: FY 2025

SERVICE & PROFESSIONAL DEVELOPMENT

Service to the Institution

- Participated in Fulbright Campus Committee Meetings every Fall semester of employment
- Participated in VURF Summer Research Funding applications review panel for Astrophysics in Spring 2025
- Participated in the Villanova College Essay Review program for Philadelphia area students in Fall 2025

Service to the Discipline and Profession

- ACRL STS Membership and Outreach Committee (formerly named Membership and Recruitment Committee) member as of July 1, 2024. Co-chair as of July 1, 2026.
- Reviewer. Resources for College Libraries. Physics bibliography, summer 2025. American Library Association.

Professional Development

- Conference attendee at LOEX 2026 and 2024, ACRL 2025, STEM Mini-Conference 2024.
- Member of Pennsylvania Area Science and Technology Librarian (PASTEL) group
- Completed the Ohio State Teaching Information Literacy Webinar series in Summer 2025 which included attending at least eight webinars on information literacy instruction.

SKILLS

Language

Proficient in French

Coding Languages

Python, R, MatLab, ArcGIS

Software

MS Office Suite, Canva, Sierra, Folio
